Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) filed Jan. 3, 2005 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,13-15,16,35-37,51 is rejected under 35 U.S.C. 102(b) as being anticipated by Canavan (6,196,681).

The limitations in claims 1,13-15,16,35-37,51 are shown in Canavan's Figs. 1-3B, column 2. Canavan discloses an eyeglass assembly comprising an eyeglass frame 12A having lens receptacles; and a pliable coating 12B coupled to the eyeglass frame, the pliable coating 12B including a brow portion and extensions, the brow portion having side portions extending above the lens receptacles and terminating at extremities above the lens receptacles and the extensions extending downwardly along both sides of a wearer's nose and terminating at extremities along both sides of the wearer's nose.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 52 is rejected under 35 U.S.C. 103(a) as being unpatentable over Canavan.

It should be noted that although claim 52 "method claims", the method steps consist of the broad steps of "forming" and "coating" and therefore these steps would be inherently satisfied by the apparatus of the Canavan reference.

Allowable Subject Matter

6. Claims 38-,39,41-44,46-50,54-58 are allowed.

7. Claims 2,8,17,23,30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 2-7,9-12,18-22,24-29,31-34,59 are objected to as being dependent upon the above objected claims.

Response to Arguments

9. Applicant's arguments with respect to claims 1-39,41-44,46-52,54-59 have been considered but are moot in view of the new ground(s) of rejection.
